

# THE 10 ESSENTIAL DESTINATIONS

## N° 5 | THE SEYCHELLES

**T**he Seychelles include some of the most beautiful islands in the Indian Ocean, or even on the planet: they are even more beautiful than in your wildest dreams...

With the Seychelles, we enter the world of postcard images: the fauna and flora are jealously protected by the authorities, and the result is sublime scenery and incredibly rich underwater life... There is no need to say anything more about these wonders, the

superb beaches and lagoons, the extraordinary possibilities offered to diving enthusiasts and the number of anchorages, very close together. The Seychelles are a real paradise for nautical tourists. To be discovered as a matter of urgency...

**THE DESTINATION'S PLUS** Jealously protected native fauna and flora. When we tell you it's magical...

**NOT TO BE MISSED** La Digue and its ox-carts, the Vallée de Mai, Grande Sœur, Ile Cousin... and don't forget your mask and snorkel. Under the water, it's even better!

**WHEN TO GO** All the year round; the Seychelles are outside the hurricane area... From the middle of May to October is the dry season, with E/SE trade winds.

From January to March is the warm, wet season, with a NE monsoon wind of variable strength and with frequent squalls.
